Ironhack

Full Stack Web Development · MERN · Madrid

09/2014 - 06/2016

IES Francisco Javier de Burgos

Higher Technical Diploma · Networked Systems Administration · Motril

LANGUAGES

Spanish · native

English · B1 Cambridge

Portuguese · basic

WORKING APPROACH

01

Clear product

Frontend and backend are designed as one responsibility, from data through to the interface.

02

Maintainable system

Proportionate architecture, explicit contracts and code that can evolve without unnecessary friction.

03

Team and client

Mentoring, requirements analysis and incident communication with precision and product judgement.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Open Ximdex Evolution SL · Remote

12/2021 - 01/2025

Editorial systems for transforming, enriching and publishing complex content.

- Microservice architecture and development with PHP, Python, MySQL, Solr, XSLT, Nginx and Apache.
- LLM and visual AI adapters for segmentation, summaries and concept maps.
- IDML, InDesign and CXML conversion into ePub and enriched HTML.
- Code review, organisation, mentoring, integration and deployment.
- Accessible PDF to HTML and adapted content for dyslexia and ADHD.

Junior-Mid Developer

Open Ximdex Evolution SL · Remote

09/2021 - 12/2021

Full-stack product evolution and semantic-tagging services.

- Laravel, Symfony, Flask, React, Next.js, Ionic and jQuery.
- Feature delivery, deployments and incident resolution.
- External-vocabulary tag recommendations through Symfony and DDD.

Junior Developer

Blinklearning · Madrid

10/2019 - 09/2021

Full-stack development for an education platform.

- PHP 7.4, Smarty, MySQL, React Native Web, jQuery, HTML and CSS.
- Second backend-department lead, covering coordination, review and analysis.
- R&D with PHP WebSockets and refactoring towards functional components.

Fran Enríquez
